LOGO ART SPECIFICATIONS

To create an exceptional award, we ask you to send us the best quality files you have. This means that all logos should be sent in a clean black & white vector format, unless its stated otherwise on the item's description.

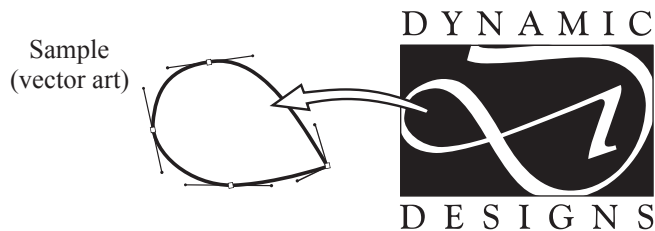

Email Accepted Files To: artwork@successories.com

Accepted File Types: Vector Files: .cdr (corel draw), .eps, .ai (adobe illustrator)

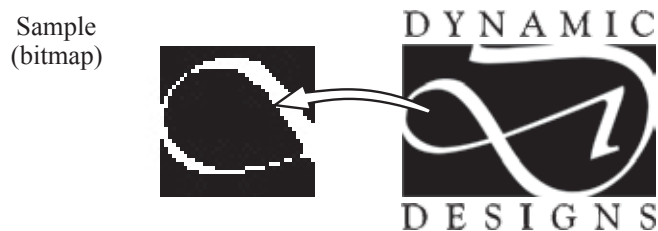

Artwork – Vector Files (best results)

Vector files are distinguishable as they will be in .eps or .ai format and when the logo is clicked on, numerous lines will appear within the logo. If a box opens up around your logo, the format is most likely not vector line art.

Adequate Artwork – Bitmap Files (adequate results)

Bitmaps are not accepted as they are made up of dots per inch and will result in jagged lines when enlarged.

Bitmap Conversion

Bitmap logos without too much detail can be converted for a \$25 fee and will take approx. 24 hours to create.
